WEST CALDWELL BOARD OF HEALTH

COMPLAINT REPORT

FEBRUARY 2016

2 Dedrick Place

Police Department reported that a driver of a waste services truck was bitten by a raccoon at RLB Foods while he was unloading a dumpster. The raccoon was not able to bite through his boot and the man refused medical assistance. Prior to receiving the examination results, the Health Officer called the man and instructed him to start the post-exposure prophylaxis since it was possible that he was exposed to the raccoon's saliva. Subsequently, the exam results were received and the raccoon was found to be positive for rabies.

THERE WERE NO ENFORCEMENT ACTIVITIES DURING THE MONTH OF FEBRUARY.

FAIRFIELD BOARD OF HEALTH

--------------------------	----------	--------------

OTHER

On 2-18-16 the Health Officer and REHS spoke to the receptionist at Sizzle Tans, informing her that the owner had 24 hours to contact the Health Department regarding state registration and licensing. The Health Officer spoke to the owner, and told him that he must register with the state or he would not be issued a license by the town.

Plan review was conducted for Retro Fitness. They are moving from Kingsbridge Road to the former site of Get Fit Health Club on Route 46. The only change is that they will have 3 tanning beds instead of 2.

FAIRFIELD BOARD OF HEALTH

COMPLAINT REPORT

FEBRUARY 2016

Corrado's Family Market, 480 Route 46

Complainant stated that he purchased two blocks of cheese and they both had a label covering an old date. When he peeled off the label, the cheeses were a year old. REHS found that the manufacturer's sell by date had been covered by a Corrado's label. Spot checked similar cheeses on display and found that some had been relabeled. Cheeses were removed from the shelves and either discarded or placed in the back to be returned to the manufacturer.

Animal Emergency Group, 1237 Bloomfield Avenue

Report of a 9 week old puppy brought in, having seizures. The puppy was not vaccinated for rabies but had no evidence of an animal bite, nor had it bitten anybody. It was, however, a rescue. The family was permitted to take the dog home but was instructed by the Veterinarian and Health Officer to quarantine and monitor the dog for 10 days.
